

TransferRite® AirMask 510U

PRODUCT DESCRIPTION

TransferRite AirMask 510U is a medium tack film application tape. This transfer tape is commonly used to transfer printed graphics or color-change air egress vinyls that are cut. AirMask pairs well with tricky air egress vinyls because its cutting edge technology allows it to adhere completely to areas of exposed liner. This means your graphics can withstand a lot of handling during transport without the worry of tunneling or curling.

SPECIFICATIONS

Colours:	Clear
Nominal Thickness:	4.3mils
Adhesion:	7 oz/in
Tensile Strength:	24 lb/in
Elongation:	570%

PERFORMANCE FEATURES

Effectively adheres to exposed air-release liners.
Works with a wide range of vinyl and liner brands
Designed for cold lamination – no heat vacuum required
Releases cleanly and easily upon installation

RECOMMENDED END APPLICATIONS

510U is used with large format or cut graphics

DISCLAIMER

The physical properties listed above are typical values and are not to be construed as specifications. Our suggestions and recommendations for use are based on tests we believe to be reliable. However, the purchaser must determine the suitability of the product for their intended use. Protective Packaging assumes no liability for claims beyond the replacement value of our product proved to be defective.
