

## PRODUCT DESCRIPTION

The VT30-UVXP-series is a high performance, high puncture masking film designed to provide surface protection on a wide variety of solid surfaces for demanding outdoor use. Special poly-ethylene blend with 25% metallocene provides high resistance against puncture and tear. A UV additive offers outdoor protection for up to 12 months. High tack copolymer acrylic adhesive system provides quick stick properties even in tough conditions. The film is safe to use and designed to provide a clean and easy removal with no adhesive transfer

## SPECIFICATIONS

Colours:	Clear or Blue
Nominal Thickness:	3.0 mil
Adhesion:	16-18 oz/in
Tensile Strength:	6000 PSI
Elongation:	550%
UV Resistance:	3 months

## PERFORMANCE FEATURES

The VT30-UVXP-series is a high performance, high puncture masking film designed to provide surface protection on a wide variety of solid surfaces for demanding outdoor use. Special poly-ethylene blend with 25% metallocene provides high resistance against puncture and tear.

## RECOMMENDED END APPLICATIONS

A UV additive offers outdoor protection for up to 12 months. High tack copolymer acrylic adhesive system provides quick stick properties even in tough conditions. The film is safe to use and designed to provide a clean and easy removal with no adhesive transfer.

## DISCLAIMER

The physical properties listed above are typical values and are not to be construed as specifications. Our suggestions and recommendations for use are based on tests we believe to be reliable. However, the purchaser must determine the suitability of the product for their intended use. Protective Packaging assumes no liability for claims beyond the replacement value of our product proved to be defective.
