

## PRODUCT DESCRIPTION

A medium tack, high performance protective masking tape for use in interior applications. The product consists of a self-wound black & white co-extruded polyethylene film coated with a custom formulated water based acrylic adhesive.

## SPECIFICATIONS

Colours:	Black/White
Nominal Thickness:	3.0 mil
Adhesion:	5.0 – 9.0 oz/in
Tensile Strength:	2700 psi
Elongation:	600%

## PERFORMANCE FEATURES

The product consists of a self-wound black & white co-extruded polyethylene film coated with a custom formulated water based acrylic adhesive.

## RECOMMENDED END APPLICATIONS

Ideal for masking and protection of stainless-steel sheets or coils with a #3 or #4 finish. Excellent performance on matte painted metals and matte high-pressure laminates. Adequate performance on nameplate substrates such as textured PET and polycarbonate.

## DISCLAIMER

The physical properties listed above are typical values and are not to be construed as specifications. Our suggestions and recommendations for use are based on tests we believe to be reliable. However, the purchaser must determine the suitability of the product for their intended use. Protective Packaging assumes no liability for claims beyond the replacement value of our product proved to be defective.
