

## PRODUCT DESCRIPTION

SPV-201FS is a surface protective material using soft PVC film. The SPV-201FS has a natural rubber-based adhesion that lends to extensive fabrication. These products are suitable for the surface protection of stainless-steel plates, aluminum plates, etc. during process and transportation.

## SPECIFICATIONS

Colours:	White
Nominal Thickness:	5 mil
Adhesion:	8 oz/in
Tensile Strength:	19.4 lbs
Elongation:	250%

## PERFORMANCE FEATURES

Minimal change in adhesive strength after laminating enables to be easy peeling.  
Light unwinding and easy laminating workability.  
Excellent bending processability.

## RECOMMENDED END APPLICATIONS

Surface protection for stainless steel plates, aluminum plates, etc. during process and transportation

## DISCLAIMER

The physical properties listed above are typical values and are not to be construed as specifications. Our suggestions and recommendations for use are based on tests we believe to be reliable. However, the purchaser must determine the suitability of the product for their intended use. Protective Packaging assumes no liability for claims beyond the replacement value of our product proved to be defective.
